## Data Collection and Processing by the App

All information you enter in MaPal is stored exclusively on your device. I do not collect, process, or store any personal data.

## Use of OpenStreetMap

To display map content, MaPal uses services provided by OpenStreetMap. When accessing these services, technical data (such as your IP address, device type, and time of access) may be transmitted to OpenStreetMap servers in order to load the maps. This data processing is carried out solely by OpenStreetMap. For more information, please refer to the OpenStreetMap Privacy Policy.

## External Services

MaPal does not use any other tracking or analytics services.
